# WELCOME TO SLOW FOOD NATIONS!

The Slow Food Nations 2018 theme is **Food for Change**. We gather in Denver this weekend because we believe that food is the most powerful tool to achieve a slow, peaceful and global revolution. As we plant, cook, eat and serve food, we unite joy and justice to build a better future together.

Let's look at the earth's climate today. We know that our industrial food system is a primary **cause** of global greenhouse gas emissions. Farmers and producers everywhere are **victims** of climate change too, as they struggle with changing weather patterns. As consumers, our relationship with food is a key factor in reversing the disastrous effects of the industrial food system on the environment. When we choose good, clean and fair food, we are a **solution** to climate change! It's time to raise our forks for a better future!

*"If you want to change the world, don't do it with sadness. Do it with joy!"*

— Carlo Petrini, founder of Slow Food

**Slow Food** is a global grassroots movement, founded over 30 years ago in Italy. We envision a world where all people can access and enjoy food that is good, clean and fair. Slow Food is creating dramatic change in more than 160 countries, with more than 150 chapters and 6,000 members in the USA.

Learn more about Slow Food at the **Slow Food Movement tent**. Sign the Climate Pledge and join our effort to make this a zero-waste event. Then dive into this festival of **flavor, culture and exploration!**
